

Risk Analyst - Model Validation, Group Risk Analytics Standard Chartered Bank

The analyst will be responsible for evaluating internal and external BASEL risk models according to theoretical rigor, model performance and regulatory considerations

- Bachelors or higher in statistics or quantitative discipline
- 1 – 2 years of experience with Wholesale bank risk models and corporate credit risk, but more is certainly preferable
- Must be comfortable liaising with senior management regarding the effectiveness of risk models, governance etc.
- Must be comfortable in an adversarial (audit) role

Please send resumes to Steven-Kee-Lin.Chan@sc.com.
